

A Global Leader in Corporate Payments

FLEETCOR helps businesses spend less on expenses and payments by enabling and controlling the process. It simplifies the way businesses manage and pay their expenses through a global portfolio of companies that help automate, secure, digitize, and control the process. Its robust suite of digital solutions allows companies of all sizes, industries, and geographies to pay supplier and employee expenses more quickly, efficiently, and securely than ever before.

- Founded in 2000
- CEO Ron Clarke
- 800,000+ Merchants
- 800,000+ Customers
- 9,400+ Employees
- NYSE: FLT since 2010
- S&P 500 since 2018

E-Payables for Suppliers

Companies save time, cut costs, and manage B2B payment processing more efficiently with our suite of e-payables solutions, including accounts payable automation, virtual cards, purchasing cards, and cross-border payments.

A/P AUTOMATION

Our solutions automate accounts payable functions to improve operational efficiency, enhance control and visibility, mitigate risks, and prevent fraud, allowing A/P to focus on more important tasks.

VIRTUAL CARDS

FLEETCOR customers can utilize enhanced payment security with virtual cards that have unique account numbers to allow payment only to approved vendors.

PURCHASING CARDS

We help companies eliminate paper purchase orders, invoices, checks, and postage while giving approved purchasers an easier way to pay for services and supplies.

CROSS-BORDER PAYMENTS

FLEETCOR ensures cross-border payment data meets banking and regulatory guidelines for multiple currencies and channels. Our products offer settlement options in more than 140 currencies, so funds arrive on time without complications.

Payment Cards for Employees

Our products help companies slash costs, boost productivity, and empower employees. Our portfolio of payment cards is the smart, safe way to pay employee expenses in the field.

FUEL

We simplify fuel expense management for our customers' fleets and drivers with cost controls, alerts, reporting and tracking, and compliance tools.

LODGING

Our customers get access to deep discounts and a full range of hotel booking options. They manage expenses with enhanced controls, including customized network access, booking controls, and reporting and tax management services.

TOLLS & PARKING

Electronic payment for tolls and parking with RFID tags lowers transit time and reduces fraud risk. It's safer and more secure for tag holders and increases volume and loyalty for partner retailers.

TRAVEL & ENTERTAINMENT

Our cards help manage and control spending, eliminate reimbursement hassles, and provide detailed reporting when paying for T&E expenses.

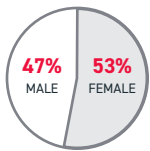

PAY CARDS

Reloadable cards facilitate payroll automation and boost morale with their secure, speedy delivery.

OUR CORPORATE SOCIAL RESPONSIBILITY

As stewards of our business, community, and employees, we take our responsibility seriously.
